GLASS

POOL FENCING

THE PERFECT FINISH

For many home owners, a pool becomes part of their backyard landscaping so you want to be able to see as much of it as possible! Frameless glass pool fences allow for this, as they are completely transparent and free from any poles or structural support that may obstruct views. They maximise safety around the pool area.

Modern Frameless Style, Provides Space & Light

We can work to new design plans, or with you and your existing pool area to maximise the feeling of space and light in your outdoor area.

Balacava Glass can install all different types of frameless or semi frameless styles of glass fencing all which meet with Australian standards.
